

Burlap Ruffle Vase Lantern

Materials

Globe Vase
Burlap - 24 to 30" long, 3" wide
Wire - 22 gage or less, 28" long
Candle

Instructions

1. About 8" from the end, use a pencil to create a loop in the wire. Twist several times.
2. Place the wire "loop" at the neck of the vase. Bring the wire around to meet itself. Twist several times.
3. Bring extra length of wire up over vase, twisting it through the loop on the opposite side, creating the handle.
4. Find the middle strand at one end of the burlap strip and pull until halfway down, beginning the ruffle. (Do NOT pull completely, or the strand will come out.) Find the middle strand at opposite end of the burlap, and do the same, meeting at the middle, completing the ruffle.
5. Tie ruffle around neck of vase, using the two strands. Place candle inside.
